BRAND GUIDE

# Present Atomic clearly.

Use the full logo where space allows. Use the standalone symbol for compact placements such as avatars and icon grids.

## Colour and type

**Logo violet**
#5959E6

**Launch-film violet**
#6544ED

**Ink**
#221C30

**Launch-film paper**
#FBFAF8

Manrope is the campaign typeface. The supplied wordmark is outlined vector artwork, so recipients do not need to install the font. The canonical logo violet is preserved. The current launch film uses #6544ED violet, #221C30 ink and #FBFAF8 paper; use the supplied colours and artwork for consistent product coverage. The font licence is included in the assets folder.

## Space and legibility

Leave clear space of at least half the symbol's height around the full logo. As a practical starting point, use the full lockup at 120 pixels wide or larger, and the symbol at 24 pixels or larger. Check legibility at the final display size.

## Usage

Keep proportions and colours intact. Use the white version on a dark background and the colour or black version on a light one. Avoid stretching, outlining, adding effects or placing the mark over busy imagery. Write the product name as "Atomic" in text.

BRAND GUIDE

# Present Atomic clearly.

Launch cover · widescreen · “Big idea? Make it real.”

## One opening design, three shapes

Use the supplied widescreen, square or vertical “Big idea? Make it real.” cover with its matching launch film. Each includes the Atomic logo and atomicapp.dev. Preserve the artwork’s proportions and clear space; choose the prepared format instead of cropping a different one.
